Sunday June 24th at 4 p.m. **LECTURE**

LIEVE BIERQUE (AiR 2018) ABOUT Art & Printmaking in **NEW ZEALAND**

WELCOME at the seat of the **Foundation V.R.**, Cogels Osylei 7, 2600 Berchem

Lieve Bierque (°Antwerp) emigrated in 1992 to New Zealand and is head of Art at Christchurch Girls' High School, capital of the South Isle. Together with Veerle Rooms she was at the base of the OUR SOLDIERS PROJECT, the role of the New Zealanders during World War I and especially during the battle of Passendale exactly 100 years ago.

Lieve Bierque declares her love and passion for New Zealand, her home at the other site of the world. The Maori-people, first residents with their own culture and artistic expressions and the white graphic artists who were and are influenced by this. She is especially fascinated by the phenomenon palimpsest, comes from the Ancient Greek 'palimpsestos'. Her new works are built around something that is reused or changed, but still recalls its earlier form.

This will be a fascinating and enlightening lecture on a little known matter with drink and nibble

*Sign in before June 1st with payment of € 5 F.V.R.- member of € 8 non-member
